Insights

Maybank and CIMB are the most sector-representative banks, both showing the highest average correlation (~0.59) — consistent with their position as Malaysia's largest banking groups

Correlation

Stock Name ▲	BIMB	CIMB	MAYBANK	PUBLIC BANK	RHB BANK
BIMB	1.00	0.31	0.26	0.16	0.26
CIMB	0.31	1.00	0.59	0.53	0.46
MAYBANK	0.26	0.59	1.00	0.51	0.53
PUBLIC BANK	0.16	0.53	0.51	1.00	0.44
RHB BANK	0.26	0.46	0.53	0.44	1.00

Insights

BIMB stands apart from conventional banks - likely due to its Islamic banking model.

Diversification

Pairing BIMB with a conventional bank gives better risk-balanced diversification than combining two conventional banks.

BIMB

Top Performers & Valuation

- RHB BANK Leads in Value:** RHB holds the **highest Period-End Indexed Price** across the dataset, reaching a peak of **188.33** in 2026.
- CIMB is the Most Consistent:** CIMB was the "Best Performer" (highest return %) in both 2024 and 2025, showing incredible sustained momentum before RHB took the top spot in 2026.

Underperformers

- BIMB is the Consistent Laggard:** BIMB was the "Worst Performer" in 2 out of 3 periods (2025 and 2026), indicating a structural struggle to keep up with its peers.
- This is likely due to its Islamic banking model**, which operates differently from conventional banks.

Overall Market Trajectory

- Strong Upward Trend:** The banking sector shows robust, consistent growth.
- Late-Year Acceleration:** The line charts for 2024 and 2025 show a distinct "hockey stick" growth curve, with the strongest price appreciation happening in Q4 (November/December).
